

Zender Germany GmbH is an international automotive supplier and produces premium interiors and exteriors made of textiles, plastics and carbon for leading car manufacturers. As the name Zender stands for both quality and continuous development, we have recently been able to establish ourselves with great success in the growing business field of medical products.

For strengthening our team, we are looking for several full-time employees as soon possible.

Laminator for Prepreg Composite (m/f/x)

Your tasks:

- ✓ Production of fiber composite components made of carbon fiber and glass materials
- ✓ Laminating / laying laminates of components and tools in prepreg process
- ✓ Production according to technical drawings and/or corresponding production documents such as Plybook/laminating book
- ✓ Vacuum preparation / preparation of molds for autoclave cycle
- ✓ Implementation of the corresponding documentation
- ✓ Tool preparation and postprocessing

Your qualifications:

- ✓ Training as a process mechanic in plastics and rubber technology or similar technical training (e.g. model builder, carpenter, joiner) is an advantage
- ✓ Experiences in Prepreg laminating or in working with glass and carbon fiber
- ✓ Skilled craftsmanship with quality standards
- ✓ Accurate, precise work
- ✓ Being able to speak and write the German language
- ✓ Ability to work in a team, independently and under pressure
- ✓ Willingness to work overtime and shift work

We offer you:

- ✓ A diverse job in an international company
- ✓ A great team and a good working atmosphere
- ✓ A transparent corporate culture with flat hierarchies and short decision-making paths
- ✓ Self-dependent and autonomous work
- ✓ A company pension and capital-forming benefits with above-average, attractive employer bonuses
- ✓ Company health management
- ✓ Jobbike
- ✓ Company discounts for corporate benefits
- ✓ Water dispenser and fruit basket

Have we caught your attention? If so, we are looking forward to receiving your application!
